Heavy Vote Polled At The Elections.

On Monday the ratepayers of Didsbury took advantage of the fine weather and polled a heavy vote for the respective candidates for school trustees and town councillors. There was a total of 170 ballot cast and when counted nine ballots were found to be spoiled.

Five candidates were elected for school trustees, and the two leading candidates to serve on the board for two years. The result of the polling was as follows:

J. L. Clarke	127
N. S. Clarke	112
J. V. Berscht	110
C. Adshead	106
W. G. Evans	104
J. A. McGhee	77
H. Hawkes	63
W. S. Durrer	55

Three candidates were elected for town councillors.

J. L. Clarke	124
H. M. Reiber	115
A. C. Fisher	100
W. Pitt	90

Cecil Adshead made a business trip to Calgary on Friday.

Attention Farmers

MR. A. G. MOORE
Dept. of Agriculture
Cow Testing Branch,
will hold a Meeting
at the Crystal Dairy
Saturday, Feb. 22nd,
at 2 p.m.
Please make an effort
to be present.

Under the direction of Glyndwr Jones, the Excelsior Glee Party will present a high class concert in the Didsbury Opera House, on Thursday, March 6th, at 8.30 p.m., sharp. Solos, duets, quartettes, and choral singing by trained artists.

Left to right, standing: A. S. Arthur, James Rintoul, Glyn Thomas, B. Lloyd, W. Williams, P. P. C. Haigh, R. Peacock, F. Jarvis, A. B. O'Riordan, and A. Barrol; Sitting: Edgar Rhys, D. Johns, D. J. Davies, Glyndwr Jones, G. M. Peacock, G. Evans, W. Morrison and I. Thomas. G. McBeth and H. Roberts were absent when picture was taken.

Tickets are on sale at all stores. Adults 75c.; school students, 50c.; and seats can be reserved at H. W. Chamber's Drug Store at an extra charge of 15c. each seat. Bring your ticket to the drug store for reservations to be marked on the ticket.

Mr J. W. Phillipson received a car load of Allis-Chalmers tractors on Wednesday.

Mrs. Dooley and Mrs. Teskey are representing the local lodge at Rebekah Assembly of the Grand Lodge of Alberta, at Calgary.

A very enjoyable whist drive was given under the auspices of the Women's Auxillary of St. Cyprain's Church, at the home of Mr. and Mrs. Lowerie on Monday evening. The ladies' prizes were won by Mrs. Studer and Mrs. Carlson and the men's by Mr. W. G. Leisemer and Mr. H. W. Chambers.

LOCAL & GENERAL

The congregational supper of the United Church will be held on Monday, Feb 24, to be followed by a business meeting.

Mr. Frank Kaufman attended the convention of the "Majestic" radio dealers at the Palliser hotel on Monday.

Fisher and Edwards unloaded a car of Massey-Harris machinery and also a car of tractors.

The Adshead Garage received a carload of the latest model Chevs on Wednesday.

1927 Pontiac Coach, in excellent condition; Lovejoy shock absorbers; new battery; tires run very little. A sacrifice at \$510.00.
Apply C. A. B. Studer.

"Oh Yeah," with Robert Armstrong and James Gleason, a comedy drama, at the Opera House, on Friday and Saturday, Feb 21 and 22.

The whist drive given last Thursday evening at the home of Mr. and Mrs. F. Barnes, was a very enjoyable affair. There were thirty two guest present. The prize winners were: 1st, Mr. Mullen and Miss Evelyn Barnes; 2nd, Mrs. Mullen and Mr. Benny St. Clair. Refreshment were served.

Hired Man Murdered At Eagle Hill.

Pat Best 23 years old was murdered at the farm of Olaf Arneson, north of Eagle Hill, on Tuesday evening. Arneson has been arrested and is now in the custody of the Provincial Police, W. Dobbin of Olds.

The murder occurred at Arnesons farm. It appears that Arneson, his wife and the deceased were playing a game of rummy at the time. Arneson, according to the police report left the room whilst his wife and Best continued to play. A few minutes later a shot rang out and Best fell forward on to the table, sliding to the floor.

The lights were blown out by the explosion. Mrs. Arneson groped her way to the kitchen and arrived in time to see her husband go outside. A moment later she saw him slide off from the place on his saddle horse. He had something in his hand which she could not recognise.

Mrs. Arneson next move was to find her neighbors. She walked three-quarters of a mile to the nearest house and returned with them. The police were then notified.

Arneson was arrested at 6 o'clock Wednesday morning just after he arrived in Olds.

Mountain View Annual Meeting.

The annual meeting of the Municipal District of Mountain View, was held at the Agricultural School Olds, on Saturday last.

A large number of ratepayers were present. The financial statement was presented and showed the finances in a very satisfactory condition. The matter of road work received considerable discussion.

Nominations were held for Divisions 4, 5, and 6, which resulted in the re-election of W. E. Flinn and C. B. Jensen for division 6 and 5 respectively, and J. A. Dodd and J. M. Graham were nominated for Division 4. The election will be held on Saturday, Feb. 22.

Westerdale Municipal Annual Meeting.

The annual meeting of the ratepayers of the Municipal District of Westerdale was held in the Westerdale Community Hall last Saturday, and was attended by a large number of interested ratepayers. Reeve N. S. Clarke occupied the chair.

The financial statement was listened to with considerable interest and numerous questions were asked in connection with the hospital work, care of the indigent patients, collection of hospital patients accounts, allotment of moneys to be expended for public works to divisions and how government grants are distributed throughout the municipal district.

The statement showed that more than double the number of miles of road was built in 1929 than in any other year since the organization of the district, due largely to earth conditions being better for road building than usual, also to the fact that the council had initiated a better system of road supervision, thereby getting more and better work done for the money expended.

Mr. E. Ainsworth, road inspector, gave a talk on the laying out at a system of market or class B roads throughout the province, the allotment of government grants to assist in building same and the conditions under which municipal districts can earn the grants. He pointed out that one of the conditions required was that the road crews had to work under the supervision of a man employed for that purpose in order to have the roads built to standard and at as low a cost as possible.

A vote of thanks was tendered Mr. Ainsworth and a motion was passed by a unanimous vote requesting the council to do all road work under the supervision of a man appointed for that purpose.

N. S. Clarke and Alex Hogg were elected by acclamation to the office of councillors for divisions one and three respectively.

J. K. Whiteside and C. G. Carlson were nominated for division 2, and an election will be held at Melvin school on Saturday the 22nd.

Mr. C. E. Reiber was a visitor to the southern city on Wednesday.

"SALADA" TEA

'Fresh from the gardens'

Forward, Canada!

Lying latent in the nature of almost every individual there is one human characteristic which comes to full bloom in times of excitement, emergency, or undue stress. It is the tendency to indulge in exaggeration. A crowd assembles for some particular reason and the average person estimates the number at two or three times its actual size, or an accident occurs and the report is immediately circulated that the toll of the dead and injured is many times greater than the reality.

So, too, when times are good the impression becomes general that they are better than is really the case, and a "boom" is created, speculation is indulged in far beyond what the circumstances warrant, and the end is ultimate loss, and in some cases disaster. Here in the West indications in any year may point to a fairly large and satisfactory crop yield, and the inevitable tendency is to make estimates of the yield far in excess of what the harvest reveals.

Turning to the other side of the picture, and the same thing will be found to be true. A slump occurs in business, the returns of the crop season are below the average, a degree of unemployment exists, and almost immediately the human tendency to exaggerate comes into play, and everything is painted in much more somber colors than there is any justification for so doing.

This tendency to undue exaggeration is in evidence in Western Canada today to the detriment of the whole country, and to every person resident therein. Recognizing the fact that the crop of 1929 was disappointing and below the average of many years, coupled with the further fact that the burden of the loss has to be borne by certain sections of the country which harvested little or no grain, the impression is created of a practically total crop failure, and that the country is no good. Such exaggeration ignores the splendid returns of former years, and takes no cognizance of the fact that, taken on the whole, and year after year, Western Canada has been forging steadily ahead. One swallow does not make a summer, nor does one crop shortage, or even failure, condemn a country or provide substantial ground for discouragement and depression, any more than one bumper crop establishes the fertility of any section or justifies a "boom" and extravagant expenditure.

At this time the people of Western Canada, in city and country alike, may well give consideration to, and base their actions upon, the average of conditions. If the grain crop was smaller than usual in 1929, in 1928 it was so big that it shattered all records; if the 1929 grain crop fell below the average, dairy production, in Saskatchewan, for example, increased by three and one half million pounds, a 30 per cent. increase over 1928. The figures of building construction in the West, last year, established new high records; employment was maintained at a high ratio throughout the first nine or ten months of the year, and the present slump is only seasonal and temporary, with prospects for 1930 just as bright as they were in 1929.

Let us remember that if the export of agricultural products by Canada fell off in the last half of 1929, the grain is still in Canada to be transported by our railways and sold by our people, and the results will be reflected in the business activity of 1930. Let us be encouraged by the fact that the greatest of our great Western enterprises, the Wheat Pool, has successfully contended with a set of the most difficult circumstances. It has been put to the test, but with the united support of all Canada's banking institutions and business and commercial interests generally, it is now quite evident that it is winning out in its great fight to protect the interests of Canada's great army of producers.

It is impossible in this world for any person, country, or corporation, to forever move forward, onward and upward. It is inevitable that periods of recession must interrupt such steady progress. The stock market cannot forever go on climbing higher and higher; it must take a drop some time. If the pendulum swings too far one way, it must swing back again because an equilibrium must be maintained. We cannot always live on the rarified heights; it becomes necessary at times to descend into the quiet and repose of the valleys.

The position of Canada, and of all Canadian industry, agricultural, manufacturing, commercial, is essentially sound and strong; stronger than that of almost any other country in the world. There is no justification for any depression, because no cause exists for it. To the extent that it is prevalent with some people it is largely a mental condition. Reverses have been suffered by some people in Canada as in other lands, and occasions arise in the life of every one when they meet with a reverse. But a reverse is not defeat. Courageously faced it can be turned to victory.

Reduce the Acid

Sick stomachs, sour stomachs and indigestion usually mean excess acid. The stomach nerves are over-stimulated. Too much acid makes the stomach and intestines sour.

Alkali kills acid instantly. The best form is Phillips' Milk of Magnesia, because one harmless, tasteless dose neutralizes many times its volume in acid. Since its invention, 50 years ago, it has remained the standard with physicians everywhere.

Take a spoonful in water and your unhappy condition will probably end in five minutes. Then you will always know what to do. Crude and harmful methods will never appeal to you. Go prove this for your own sake. It may save a great many disagreeable hours.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Air Must Be Charted

Pilots Should Know Exact Location Of High Mountain Peaks

Tragic was the fate of the two British airmen who crashed into the side of a mountain in Northern Africa, and were killed, while attempting to make a non-stop flight from England to Capetown. It is a reminder that mountains are a greater danger to airmen than rocks are to seamen.

The seas have been so travelled that almost every rock in existence is known, charted, and in some way marked by signs at night. Except for what earthquakes may do by changing the configuration of the bed of the ocean, there is probably no voyage that any ship can make without being fully prepared to avoid submerged rocks.

The air routes will have to be marked out in the same way. This is not the first time that aviators have come to grief through hitting a mountain.

The route to South Africa is across varied terrain. These airmen may have been flying thousands of feet high and felt they were quite safe, forgetful of the peaks which rear their heads far into the clouds.

Long distance passenger planes are to increase rapidly, and the pilots will have to be provided with charts which will show them how high they must fly along the routes in order to avoid hitting a mountain.

Smothering Spells

Couldn't Walk Far Gaped For Breath

Mrs. T. W. Roth, Kelowna, B.C., writes:—"For over a year I was troubled with smothering spells, and it was impossible for me to walk, even a short distance, on account of having to gasp for breath."

"A friend told me to try

which I did, and in a short time I felt much better.

"I can now recommend them to everyone."

Price, 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Record Of Flying Clubs

Canada's Airmen Had 15,400 Flying Hours Last Year

Members of Canada's 23 light aeroplane clubs flew 15,400 hours during 1929, figures released by the civil aviation branch of the Department of National Defence show. This flying time is equivalent to 1,232,000 miles, and is nearly twice that flown in 1922. Total membership of the clubs is 5,092. At the end of the year there were 396 solo fliers, while 165 private pilots and 58 commercial pilots had graduated from the student ranks of the clubs.

In all infantile complaints that are the result of the depredations of worms in the stomach and intestines Miller's Worm Powders will be found an effective remedy. They attack the cause of these troubles, and by expelling the worms from the organs insure an orderly working of the system, without which the child cannot maintain its strength or thrive. These powders mean health and improvement.

Putting Radio To Test

Soviet Radio Station Converses With Byrd's South Polar Party

Over 12,420 miles of sea and land—the northernmost and southernmost outposts of civilization—conversed recently by radio.

The Soviet radio station in Franz Joseph Land, compared weather with Rear-Admiral Richard E. Byrd's south polar party.

The Soviets described an Arctic dawn, and the Americans replied with a description of an Antarctic night-fall.

Byrd asked the Russians concerning progress of the search for Capt. Carl Ben Eielson, American aviator-explorer, lost in the Alaskan Arctic since Nov. 9.

Minard's—The Great White Liniment.

W. N. U. 1822

Restless Children

Children will fret, often for no apparent reason. But there's always one sure way to comfort a restless, fretful child. Castoria! Harmless as the recipe on the wrapper; mild and bland as it tastes. But its gentle action soothes a youngster more surely than some powerful medicine that is meant for the stronger systems of adults.

That's the beauty of this special children's remedy! It may be given the tiniest infant—as often as there is any need. In cases of colic, diarrhea, or similar disturbance, it is invaluable. But it has everyday uses all mothers should

understand. A coated tongue calls for a few drops to ward off constipation; so does any suggestion of bad breath. Whenever children don't eat well, don't rest well, or have any little upset—this pure vegetable preparation is usually all that's needed to set everything to rights. Genuine Castoria has Chas. H. Fletcher's signature on the wrapper. Doctors prescribe it.

Heavy Charge On Industry

Fires Are Costing Canada Almost One Hundred Million Annually

Fires cost Canada approximately \$100,000,000 yearly, according to a statement issued by the Canadian Chamber of Commerce in an effort to introduce to chambers and boards throughout the country a composition designed to lower this heavy charge on industry.

Business bodies have been classified into four sections determined by population, and a shield will be awarded by the chamber in each section for the organization showing the greatest reduction in fire loss, the most educational activity along fire prevention lines, and the most permanent structural and protective improvements.

The formation of large hailstones begins at heights estimated at between 15,000 and 40,000 feet above the ground.

The river systems of the earth are estimated to carry to the ocean each year about 6,500 cubic miles of water.

Use Minard's for Neuralgia.

The lowest point for thousands of miles of the Andes is 10,000 feet above the sea.

Award For B.C. Astronomer

Gold Medal Won By Director Of Dominion Observatory, At Victoria

The gold medal of the Royal Astronomical Society has been awarded to Dr. J. S. Plaskett, director of the Dominion Astro-Physical Observatory, at Victoria, B.C., it has been announced. Dr. Plaskett earned this high award for valuable observations of stellar radial velocities and important conclusions derived from these observations. The Victoria scientist has accepted the Society's invitation to hold the post of George Darwin, Lecturer for 1930, in England.

Help For Asthma. Neglect gives asthma a great advantage. The trouble, once it has secured a foothold, fastens its grip on the bronchial passage tenaciously. Dr. J. D. Kellogg's Asthma Remedy is daily benefiting cases of asthma of long standing. Years of suffering, however, might have been prevented had the remedy been used when the trouble was in its first stages. Do not neglect asthma, but use this preparation at once.

Marle: Is it true that Margaret has a secret sorrow?

Anna: Why, yes; hasn't she told you of it?

Mahogany trees do not reach their full height until they are 200 years old.

Needless Pain!

People are often too patient with pain. Suffering when there is no need to suffer. Shopping with a head that throbs. Working though they ache all over.

And Aspirin would bring them immediate relief!

The best time to take Aspirin is the very moment you first feel the pain. Why postpone relief until the pain has reached its height? Why hesitate to take anything so harmless?

Read the proven directions for checking colds, easing a sore throat; relieving headaches and the pains of neuralgia, neuritis, rheumatism, etc.

You can always count on its quick comfort. But if pain is of frequent recurrence see a doctor as to its cause.

ASPIRIN

TRADE MARK REG.

New Nipawin Bridge Will Provide Gateway To Rich Area In Northern Saskatchewan

Faith in Canada's northern areas of resource becomes reality in the Canadian Pacific bridge now nearing completion at Nipawin, Saskatchewan. Designed to take the heaviest locomotives likely to be built, this magnificent structure, a little more than 1,907 feet long, spans the Saskatchewan River, at a point leading from the more definitely agricultural section into timber and mining districts of recognized magnitude. It will afford ready access to still unexplored farm lands and direct transportation possibilities for those who will explore and develop mineral expanses rich in promise. The end of the year saw it finished.

Among the major operations of the Canadian Pacific Railway for the year 1929, the Nipawin Bridge, begun in October, 1928, is one of the exceptionally large steel structures in the west. In symmetrical spans it connects north and south banks of the Saskatchewan at about 150 feet above water level of the river. It provides not only railroad transit calculated for 60,000 pounds axle load on the engine drivers, but is made in double-deck fashion, with a sixteen foot highway for vehicular traffic on the lower chords, designed for fifteen ton loading.

This steel roadway, built on a creosoted understructure with a two inch untreated wearing surface, will carry the Saskatchewan Government's provincial highway across the river. Legislative forces co-operated with the railway company in relieving a situation which naturally proved a hindrance to agricultural development. Hitherto a ferry was required to convey travellers and vehicles across, a mode of travel full of difficulty by reason of the steep descents to the water level on both banks, a particularly serious condition in winter. At each end there is a trestle approach connecting the bridge roadway with the usual highway to the river. What this connecting link will mean in agriculture settlement and progress can scarcely be computed.

T. C. Macnabb, Engineer of Construction, describes this latest of Canadian Pacific bridge achievements in the west as of deck rivetted truss design with spans 280 feet long. The deck plate girders at the north approach are supported on steel towers each carried on low concrete pedestals. The abutments are of concrete and the four centre spans consist of deck trusses carried on reinforced concrete piers. The three centre piers are 130 feet high from the bottom of the footings and those connecting the outer spans are 120 feet.

Engineering skill of a high order has come into play in the construction of the Nipawin bridge. Mr. Macnabb explains that owing to the depth of the water in the turbulent and shifting Saskatchewan channel, vertical supports from the river bed were impracticable. The great 280 foot spans were built out by derrick car from each pier and were added to till the steel stretched horizontally and reached the supporting span at the end of the truss. More than 200,000 rivets have been driven by the air hammers in the field to take care of the eight and a half million pounds of structural steel required in the making.

The bridge has been built by assistant engineer H. D. Brydon-Jack, whose wife, an artist of ability, has painted it with its romantic environs so skillfully that she has produced an art subject of much beauty which is

now on display in the Royal Art Gallery at Montreal.

Up where the Saskatchewan waters begin to slough their dun color and take on the blue of mountain streams, this fine structure becomes part of a landscape typical of the vigorous North-West.

When the project was first mooted, D. C. Coleman, vice-president of the Company's Western Lines, referred to this railroad-roadway as one of the finest structures of its kind—a main gateway to the North, and tangible evidence of the Canadian Pacific Railway Company's faith in the mineral and agricultural resources of Canada's great middle northern area.

A Challenge To the West

Western Canada Must Show Superiority Of Our Grain At World's Grain Show

"Mr. Craig, Deputy Minister of Agriculture, points out that the world's grain fair which is to be held in Regina two years hence will put Western Canada on trial as a grain-growing country. The prairie provinces have so persistently invaded Chicago and carried off honors at the International, that they have invited friendly reprisals. Every grain-growing state in the Union, and probably every outstanding grain-producing country in the world, will have exhibits at Regina. Canada's rivals are thus being offered an opportunity to 'carry the war into Africa,' and they have very substantial inducements to do so. If Western Canada can capture the awards at Regina that will be a more convincing demonstration of the superiority of our grain than the honors which have been brought back from Chicago. If outsiders carry away these prizes, the prestige of the grain-growing provinces will suffer in corresponding degree. The grain to be shown at Regina will have to be grown during the next two seasons. It is not too early to centre attention upon that event and begin to prepare for it.—Edmonton Bulletin.

Indigent Patient Problem

Question Is Discussed By Saskatchewan Medical Council

Efforts to solve what is known as the indigent patient problem have been commenced by medical men of Saskatchewan. While views of the physicians have not been given, the matter was discussed at the annual meeting of the Saskatchewan medical council.

The medical council spent much time on the problem of the relation of the medical man to the public, particularly in regard to indigent people.

"No scheme has been decided on," Dr. O. E. Rothwell, newly elected president, states. "A conference has been called for interested organizations in the province and we hope to reach a solution."

"The meeting will be held in Regina some time later this month. The United Farmers, municipal officers, medical men and other interested parties, will take part in the conference. The exact date has not been decided on."

Dr. Rothwell said that the matter was one of much interest to the medical council in the province and elsewhere in Canada. It is expected that it will provide one of the important discussions at the gathering of the British Medical Association which will be held at Winnipeg during August.

It is expected that a number of Saskatchewan physicians will attend the Winnipeg gathering. The association has met on one or two previous occasions in Canada.

Will Discourage Immigration

No Change Is Made In Quota Of Immigrants From Europe

No change has been made in the quota of colonists to be brought from central European countries in 1930, according to officials of the Department of Immigration and Colonization of the Canadian Pacific Railway at Montreal. The reply was given to the question of the number of Mennonite families coming to Canada this year. A conference between the railway officials and the Department of Immigration, of the Dominion Government, made allowances for a few Mennonite families last September, and since that time no changes have been made.

Canada Occupies Foremost Place Among Countries of the World In Systematic Seed Improvement

For Study Of Cancer

Colony Of Mice To Be Kept For Experimental Purposes At Laboratory In Maine

A city of mice—20,000 to 40,000 of them—will ultimately be under the eyes of scientists at the Jackson Memorial Laboratory, at Bar Harbor, Me., for the study of cancer. Clarence C. Little, director of the laboratory, and former president of the University of Maine, and the University of Michigan, has announced.

A complete record of the life history of each of the small rodents will be kept and although no startling or sensational results are expected, Mr. Little and members of the staff hope to learn some things that will aid in the fight against the disease.

Large Metal Shipment

Aluminum Slabs Valued At Over Million and a Half Shipped From Vancouver To Japan

Aluminum slabs and bars to the value of \$1,500,000, originating in the Province of Quebec, have been shipped from Vancouver to Japan. They represent the largest shipment of metal ever to leave the western port—being some 3,000 tons in weight—and it is reported that a second similar shipment will follow shortly. Another outward movement of some importance is that of lead and zinc concentrates from a mine near Field, B.C., to refineries in Japan and the United States. These shipments are likely soon to run from 5,000 to 10,000 tons per month.

Kept To Schedule

"When is the next train out of this burg?"
"Twelve o'clock, sir."
"What? Isn't there one before that?"
"No sir; we never run one before the next."

Many a man who imagines he is a wrestler can't even throw dice.

"A new seed grain elevator, erected by the government of Canada at a cost of \$300,000, has just been opened formally for business in Moose Jaw, Saskatchewan. This addition to the machinery of the grain industry of western Canada is the first plant of its type to be constructed on this continent. It is a sixteen-storey building furnished with the most modern appliances for the handling and cleaning of seed grain and is capable of receiving such grain at the rate of 5,000 bushels an hour for storage in its bins. The plant has been erected for the Saskatchewan Registered Seed Growers, Limited. This organization is commonly known as the Seed Grain Pool. It numbers among its directors two celebrated growers of seed grain, J. C. Mitchell, of Dahinda, and Dr. Seager Wheeler, of Rosthern, both of whom have been winners in the past of the highest award for samples of hard spring wheat at international grain exhibitions in Chicago and, in consequence, have held for a season the title of 'Wheat King' of America. The Seed Grain Pool, in Saskatchewan, has been in existence for five years and in that time has quadrupled the volume of its business.

The new plant in Moose Jaw thus will play a part in the operations of one group of workers in a very important branch of agriculture in Canada. Of such workers four or five thousand are enrolled in the Canadian Seed Growers' Association. This organization was formed for the purpose of promoting interest in the production and use of high-grade seeds on Canadian farms, and its members throughout the Dominion carry on their operations in accordance with certain rules. In a number of the provinces, too, subsidiary seed growers' associations have been in existence for a number of years. Members of these organizations have supplied seed of excellent quality to farmers in this country, the United States, Argentina and other countries. The government of Canada has provided for the testing and registration of seed grains and provincial governments, among them that of Ontario, have endeavored to provide the farmers with good varieties of grain and vegetables and to encourage them to see that their seed is clean and thus help to combat the spread of noxious weeds. L. H. Newman, the Dominion cerealist, wrote a few years ago that "among the countries of the world, Canada occupies a foremost place in regard to its organization both for systematic seed improvement and for handling high-class seed in commercial quantities under efficient control." This is as it should be, because clean seed of good varieties of plants and of a high standard of quality is necessary for the welfare of agriculture in this country. — Mail and Empire.

Limiting Fish Catch

Only Six Million Pounds May Be Taken In Lake Winnipeg, According To Ruling

The limitation on the catch of fish in Lake Winnipeg, has been set at 6,000,000 pounds for this season, according to an announcement by W. A. Found, Deputy Minister of Fisheries, at Ottawa. The limitation, which is in the discretion of the minister of the department, was originally set at 5,000,000 pounds. Mr. Found said that in succeeding seasons the figure would revert to 5,000,000 pounds.

Grasshopper mice were so named back in 1843 in North Dakota because their fondness for grasshoppers was noted.

NEW BRIDGE ACROSS SASKATCHEWAN RIVER AT NIPAWIN

Where the new Nipawin Bridge spans the Saskatchewan it takes on the appearance of the artist's drawing at the top of the picture. Vehicular traffic will be carried in the space between the iron-work, and Canadian Pacific trains will travel on the top. (1) shows the piers at work in the year of construction. (2) In picturesque setting, the main piers of the structure are viewed from Ferry Hill in August, 1929, before the steel arrived. (3) The west towers almost finished December 18. (4) Looking across the completed bridge on the vehicular roadway which meets the Government highway at either end.

ALBERTA'S MOUTH HEALTH CRUSADE

The important bearing that the condition of the teeth has upon the general health of the individual is to be brought to the attention of the people of this province in a forceful way in a 60-day campaign beginning on February 17th. In every part of Alberta addresses will be given, stories told, films and lantern slides shown, and illustrated pamphlets distributed, all teaching the great lesson that sickness and suffering and even death may be caused by the neglect of the teeth.

In this work all the philanthropic and service organizations of the community are expected to cooperate. Churches and schools and clubs will play a particularly prominent part. The public will be shown how they may prevent the decay of the teeth by eating the right kind of food, balancing the diet, and brushing the teeth in a regular and systematic way. They will be informed about the ills that affect the whole body because of diseased teeth and about the best measures to be taken to deal with such conditions.

Nor will the campaign be confined to educational work. The mouths of all children in the schools will be inspected, in which task every dentist will put in two days of his time without charge.

The campaign is being put on by the Canadian Dental Hygiene Council, a nation-wide organization composed of public spirited persons of all classes, which will work through the Alberta Dental Association, with the active cooperation of the Provincial Departments of Health and Education. For the purpose of the campaign the province will be divided into 22 districts, each with its own chairman and local campaign organization. Every citizen in Alberta is in one of these 22 districts and has an opportunity to help.

The growing generation should be healthier than the one that preceded it because of this dental crusade; and a lot of misery on the part of adults due to lack of knowledge and care of the teeth should be obviated.

IMMUNIZATION

Those last few days have brought thoughts of spring—spring when the good brown earth is turned over to the sun and the winds of heaven; when seed is sown with a conscious or unconscious prayer that good harvest may result. The farmer looks over his finished fields with pride and hope, having given unstintingly of his work and himself that others have bread, and the better to do this he buys the best seed he can afford. It must be clean—it must ripen early—and it must be immune to rust. The same

LOCAL & GENERAL

Mr. Geo. Shiels was a visitor to Edmonton this week.

Mr. and Mrs. A. R. Kendrick were visitors to Calgary Sunday.

Mrs. H. D. Booker is attending the Women's Auxiliary convention in Calgary this week.

Don't forget the big dance on Wednesday, February 26th. Bone's Orchestra of Red Deer.

Mr. James Halton was a business visitor to Calgary for two days last week.

Mr. and Mrs. Roger Barrett spent a few days the first of the week in Calgary.

Melvin Go-Getters are holding a dance in the Melvin School on Friday evening Feb 28th. Good snappy music.

Miss Symons, of Calgary, wishes to announce that she has opened a beauty parlor in the in the Peterson Block. Marcelling and water waving are specialties. 7 4p

Mr. and Mrs. E. G. Ranton were called to Edmonton on Saturday night, owing to the illness of Mrs. Ranton's sister, Mrs. Ormsby. Mr. Ranton returned on Tuesday. Mrs. Ranton will remain in Edmonton for a few days.

Two of the rinks that attended the Olds bonspiel last week, were successful returning home with four prizes. Dr. Clarke won second prize in the Visitors, and the Kaufman, rink won third in the Ask'n and the Visitors events and fourth in the Consolation.

NOTICE.

The Alberta Co-operative Live Stock Producer's Association wish to notify all old contract signers of the Livestock Pool that they have the privilege of shipping their livestock through this association and also all farmers wishing to cooperate with the pool have the same privilege until further notice.

The shipper engaged is Mr. Bob Simpson, who will be at your service at all times. Phone 41. Committee.

with his stock, he buys none but healthy animals, and he is careful that they remain so.

Yet that careful man will laugh skeptically at the idea of his children being immunized against disease. His father and grandfather lived without vaccines and serums, so can he and his children. But can they? Is it worth the risk? Diphtheria is no respecter of persons, and typhoid or smallpox take toll of both child and adult. Every child should and can be protected from the above mentioned diseases. Are yours?

Information on immunization can be had from the Canadian Red Cross Society, 407 Civic Block, Edmonton.

WHY NOT U.S. HONEY?

During the past several weeks Alberta weekly newspapers have been approached by the Alberta Development Board for their support in a campaign designed to influence consumers in favor of "Made in Alberta" products. The campaign is a worthy one, and the Alberta Development Board is a live organization. But, we would call that organization's attention to the inconsistency displayed by one of Alberta's leading producers.

While at breakfast this morning we reached for the honey jar. It was a very attractive container and we confess a liking for money—good honey; the kind that is produced in Alberta by the Riedell people. And that little glass jar of honey was purchased in preference to other brands, because it was produced in Alberta.

But, imagine one's chagrin when a glance at the label disclosed the fact that it was "Printed in U.S.A." There are a hundred printing plants in Alberta which might have produced that label and improved upon

Auction Sale

Acting Under the Instruction of Mr. Paul L. Uhland I will sell by Public Auction at the S.W. of 10 31-3 5, 3 miles S. and 1 1-2 Miles W. of Didsbury,

Thursday, Feb. 27**Horses**

TERMS—9 months' credit on approved joint bankable notes, 8% interest. **4% Off For Cash, \$40.00 and under net cash.**

J. W. PHILLIPSON, Auctioneer.

its design, but the producer who is catering to the Alberta consumer steps across the international border and buys a foreign label to advertise his product, which he hopes to sell in the home market.

Straws point which way the wind blows and this little incident is but a sample of the inconsistency of many Canadian manufacturers when it comes to purchasing labels, wrappers and containers. And now, can we be criticized if we are converted to the use of United States honey?

DUTIES OF CURLERS

The Lead, a Lowly Person; Second, a Mere Man; Third, a Gentleman; Skip, an Ideal Curler

The following thoughts on curling as taken from the Weyburn Review, will strike a responsive chord in many a local bosom—especially this week. The writer outlines the duties of the various members of a rink.

The Lead—A Lowly Person—This is a very lowly person who throws the first pair of rocks. He is supposed to thank the Deity once a day in his prayers that he even exists, let alone being allowed to play at bonspiel time. He always addresses the skip as "Sir" and the third man as "Mr."

This lead person is expected to see that the four pairs of rocks belonging to his rink are on the ice and cleaned five minutes before the game starts. He must do no less than 75% of the sweeping; he is expected to keep the skip fully supplied with cigarettes. His curling must be perfect or he is blamed for the loss of all games in which his rink suffers defeat. He may tell the second man what he thinks about the skip, but no one else. After many years he becomes a skip if he survives the sarcasm of his associates.

The Second Player—"Mere Man"—This person is but degree removed from the lead. He is expected to do 15% of the sweeping. He also, as the lead, is expected to keep the skip supplied with cigarettes and the third man with matches. He must on all occasions get the rock he is to pick out, otherwise he is blamed for loss of games.

The Third Player—A Gentleman—This gentleman is in a class by himself always. He could skip the rink, in fact he always could skip it far better than the skip doing the job now. He assumes an air of superiority over all leads and seconds and of mere condescension to his skip. He does the remaining 10% of the sweeping. He holds the broom for the skip to shoot, and invariably tells the skip that he should have tried the shot he, the third man, had chosen and not the one he, the skip, has just missed.

The Skip—The Ideal Curler—He is a gentlemanly sportsman who gets up the rink, often sacrificing valuable time to the interest and entertainment of three other curlers who wish to play in the bonspiel. He does none of the sweeping, he merely holds the broom and his own tamper while the rest of the rink miss the one and strain the other. He has to knock out shots when he can only see an eyebrow. He must draw in to the button, making it by eighths of inches. He must play a runner shot and a draw the next. He must take out four rocks with one shot and then lay on the button and generally make himself useful, knowing that if he wins his rink gets the credit and if he loses he alone bears the blame. He must have the patience of Job and the aggressiveness of Napoleon, must never complain or he will be classed as a poor sport.—Exchange.

VALENTINES TO THE SICK

In many homes the evening hours recently have been spent in a busy happy fashion by Junior Red Cross children in the making of valentines which have been mailed to the little sick patients in the Junior Red Cross Hospitals of Calgary and Edmonton.

The little bright hearts of the valentines and the greetings that accompanied them—often quite an artistic performance—sometimes quite original—gladdened the hearts of those who are bedfast in the wards.

The matron distributed these on Valentine's Day and the lonely child who has not many friends, felt a warmth of pleasurable excitement at the thought that another child somewhere in the country had been thinking about him.

By these seasonal offerings of affection the members of Junior Red Cross can interpret their pledge of "thinking of others less fortunate than themselves."

COLONEL J. S. DENNIS RETIRES

Colonel J. S. Dennis, C.M.G., Chief Commissioner of Colonization and Development, Canadian Pacific Railway, will retire January 1, after 28 years with the company, according to the recent announcement made by E. W. Beatty, chairman and president of the system, and the department will then be divided into the Department of Immigration and Colonization and the Department of Development. J. N. K. Macalister, at present assistant chief commissioner of Colonization and Development, will be chief commissioner of the Department of Immigration and Colonization and Major G. G. Ommanney will be the director of the Department of Development.

Colonel Dennis, or "J.S." as he is known to old-timers, was 73 years old last October, and has had as colorful a career as any man in Canada. He went west in 1872 at the age of 16 on survey work and in 1885 saw service against Louis Riel as commander of the Dominion Land Survey Intelligence Corps which during the rebellion was known as "Dennis' Scouts". Among the outstanding work in which he was engaged was the laying out of irrigation systems later constructed in the Lethbridge region and in the great Bassano Dam Irrigation project of the Canadian Pacific Railway, east of Calgary. His unrivalled knowledge of Canadian economic and agrarian development has caused Colonel Dennis' name to be placed among the foremost of Empire builders. Although retiring as active head of the Colonization and Development

Department of the Canadian Pacific Railway system, he will still participate in the future development of the department since he will act in an advisory capacity to the company's directors.

Mr. Macalister has for more than 22 years given close attention to colonization problems. Since 1906 he has been immediately interested in opportunities of development and colonization in the west and entered Canadian Pacific service in 1907. He has done much work in the United States drawing attention to the unparalleled opportunities offered by the Canadian West. He was appointed assistant commissioner of the department in 1926. His ability in his chosen field was recently recognized by colonization experts from all parts of the continent when they elected him chairman of the Immigration committee of the American Railway Development Association.

Major Ommanney joined the Canadian Pacific Railway in 1907. As a qualified civil engineer he had previous to that date done work all over the world. In 1914 he was appointed special engineer to the president, and from 1915 to 1919 was overseas with the Royal Engineers Imperial units. On his return from the war he was appointed to Colonel Dennis' department as development engineer, to bring the natural resources of territories covered by the Canadian Pacific Railway into commercial use. He was appointed Director of Development Branch of the Department of Colonization & Development in January, 1928.

REMEMBER YOUR OWN CHILDHOOD Give Cod-Liver Oil The Pleasant Way

**SCOTT'S
EMULSION**

WORLD HAPPENINGS BRIEFLY TOLD

A search is now being conducted for an old post of the Hudson's Bay Company, and the fort of the Northwest Company which once stood close to the Saskatchewan River, about 80 miles north of Saskatoon.

Hon. P. J. Cash'n, Minister of Finance in the Newfoundland Government, told the Canadian Press that Newfoundland would balance its budget this year for the first time in a decade.

Owing to the increase in the number of cheques drawn by persons who have not sufficient funds on deposit to meet them, the banks of Ottawa have decided to make a charge of 50 cents for every such cheque issued hereafter.

Commissioner George Mitchell, international secretary for the Salvation Army's work in Europe, and in the British Dominions, died recently in London. He began his career with the Army as a messenger boy more than 40 years ago.

Executors of the late Gen. Bramwell Booth, former Salvation Army head, have been ordered by the chancery court to turn over to General Higgins, who now heads the Salvation Army, property valued at £1,000,000 (\$5,000,000).

The beacon light of Brandon Aero club has been put into operation. It is one of the first in Western Canada, and it will be used to guide night fliers, not only on the regular air mail routes, but other airmen as well. Its flashing rays can be seen for miles.

Persian Balm—the one toilet requisite for the dainty woman. Delightful to use. Leaves no stickiness. Swiftly absorbed by the tissues. Delicately fragrant. Imparts a velvety loveliness to the complexion. Tones up the skin, soothes and banishes all unpleasant roughness or chafing caused by wind and other weather conditions. Makes hands soft and white. Creates an elusive, essentially feminine charm. Persian Balm is indispensable to women of refinement.

Discovers New Drug

Having all the antiseptic properties of iodine, but not stinging when applied to open wounds, a new drug has been discovered by Professor Hans Friedenthal, a physiologist of the Berlin University. He has named the new antiseptic "metajodin," which is said to be made by combining iodine with oxygen.

Sores Heal Quickly.—Have you a persistent sore that refuses to heal? Then, try Dr. Thomas' Electric Oil in the dressing. It will stop sloughing, carry away the proud flesh, draw out the pus and prepare a clean way for the new skin. It is a recognized healer among oils and numbers of people can certify that it healed where properly applied.

Made Poor Job Of It

During a recent wedding, the bridegroom fainted, but the ceremony proceeded after a delay of twenty minutes. A cynical correspondent says that the bridegroom evidently hasn't learnt how to faint thoroughly.

WHY SUFFER FROM YOUR LIVER?

Why be handicapped with unsightly blotches on the face, eyes with yellow tinge and that tired and languid feeling? This indicates a torpid liver. Headache, Dizziness and Biliousness surely follow. You must stimulate your lazy liver, start the bile flowing with Carter's Little Liver Pills.

They also act as a mild laxative, purely vegetable, free from calomel and poisonous drugs, small, easy to swallow, and not habit forming. They are not a purgative that cramps or pains, unpleasant after effect following, on the contrary a good tonic. All Druggists 25c and 75c red pkgs.

W. N. U. 1822

What Year Is This?

May Be Even Later Than We Are Dating It

Although the past year is recorded as 1929, it may really be, says an article in Tilt-Bits, 1933, or even later. This fact is indicated by a record of an eclipse of the moon. Bible history says that Christ was born during the reign of Herod the Great. But Herod died in the spring of 4 B.C., the next date being fixed by a lunar eclipse which took place the night before his death. Obviously, therefore, Jesus must have been born not later than 4 B.C., and possibly earlier. The Church had no definite knowledge of the date of Christ's birth. It fixed the year, month, and day of the month arbitrarily. Astronomers are able to calculate the dates of past eclipses as accurately as those of the future, and so have determined the very day and hour of the eclipse that ushered Herod the Great out of this life.

THIN-BLOODED PEOPLE ALWAYS FEEL COLD

To Withstand the Rigors Of
Winter the Blood Must Be
Rich and Pure

Thin-blooded people easily become discouraged. They lose strength; grip, influenza and ordinary winter colds seize them and they find it exceedingly hard to shake off any of these troubles. They feel chilly all the time; their nervous system becomes a wreck; they cannot sleep and life becomes a burden.

To overcome this deplorable state of health good blood is essential. This good blood gives warmth to the body; strength to the nerves and does much to either prevent colds and grip or to banish their dreaded after-effects. Dr. Williams' Pink Pills is the perfect blood builder—they never fail to make new, rich, red blood. They are the ideal tonic for winter use. Concerning their use Miss Kate L. Grant, Merlin, Ont., writes:—"I was very much run down but found health and strength through the use of Dr. Williams' Pink Pills after other medicines had failed to help me. Two years ago I felt tired all the time; had no appetite; was nervous and cold all the time. Nothing I took seemed to do me any good till I began the use of Dr. Williams' Pink Pills. After a short treatment with them the draggy feeling left me; my appetite improved; my blood became warmer and my strength gradually increased. This encouraged me to continue the use of the Pills and now I am feeling better than I have done for years."

Dr. Williams' Pink Pills do one thing but they do it well—they build up and renew rich, red health-giving blood thus making weak, run-down men and women strong, active and happy. These Pills are sold by medicine dealers or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Sunlight and Health

Ultra-Violet Rays Are Necessary To
Life and Health

Have you ever noticed your lawn where a board or flower-pot has lain for a few days. The grass will be yellow and will eventually turn white or die. It is the lack of sunlight and the ultra-violet rays which are necessary to the health and life of plants as well as human beings, animals and birds.

Poultrymen have discovered that the ultra-violet rays of the sun prevent leg weakness and other diseases, and promote growth in a marvellous way. Unfortunately ordinary glass does not allow these vital rays to pass through it with the red and other rays which we know as sunlight. However there is a glass substitute called "Windolite" which is flexible and yet unbreakable and that allows full penetration of these important ultra-violet rays. Up until a few years ago, turkeys were difficult to raise in confinement, but with the brooder houses fitted with "Windolite" they thrive as well as in natural sunlight and get a splendid start in life before they are allowed outside, especially when the weather is cold and wet.

"Windolite" is now being used extensively all over Canada for poultry houses and dairy barns as well as sun rooms, and in hospitals, and sanitariums where sun baths are a regular part of the treatment of certain diseases.

British Columbia Salmon

Salmon canned in British Columbia is exported to over thirty countries in the world. The annual marketed value of the B.C. product is more than \$13,000,000.

A Contentious Question

Some Solution Of Divorce Problem To
Engage Attention Of Parliament

Divorce, which proved such a contentious question during the last session of parliament, threatens to be a storm centre once again unless some solution, which will appeal to all factions in the House of Commons is discovered. Last session was staged a rebellion against the usual method of handling divorce bills in the House of Commons. Led by J. S. Woodsworth, Labor member for Winnipeg North Centre, opponents of the process whereby divorce bills which had been approved by the senate, went through the commons as a matter of form, voiced strenuous objection. Members objected to approving legislation which they knew nothing about. Mr. Woodsworth protested strongly against any effort to pass several bills en bloc, and for a time insisted that the members sponsoring the measures furnish the house with explanations. A partial blockade developed, and a more serious one threatened.

The intervention of Premier Mackenzie King, during the month of April last, doubtless helped in the temporary solution of the problem. It was on April 22, when debate on the propriety of parliament granting divorces and the need of divorce courts in Ontario was in full swing, that the prime minister spoke briefly. He pointed out that parliament had, during that very session, decided against the establishment of a divorce court for the province of Ontario. For the time being, therefore, it appeared necessary to deal with divorce applications, as in the past, by private bill. But the government would continue to give very serious consideration to the matter.

"I could not promise that we will find a solution during this session of parliament," added Mr. King, "but I would express the hope that by another session, by conference in the interval with members, we may find it possible to effect some arrangement which will enable those seeking divorce to secure such redress as should be given them by means which will commend itself more completely to parliament and avoid a recurrence of a situation such as we have at the moment."

Grandmother Knew—She Used Minard's.

When the sewing machine for shoes was first introduced one man could do as much as 60 had done before by hand.

The trouble is most of us know hundreds of ways to spend money and only one way to make it.

Royal Bank Annual Meeting; Assets Exceed Billion Dollars

The annual meeting of shareholders of The Royal Bank of Canada not only marked the close of the most successful year on record, but was rendered specially interesting by constructive addresses delivered by Sir Herbert Holt, president; C. E. Neill, vice-president and managing director, and Morris W. Wilson, general manager.

Sir Herbert, in addressing the shareholders, pointed out that in spite of the losses incurred by thousands of investors throughout Canada and the United States, the strength of the business structure is such that there is no reason to look forward to more than a moderate recession in business during 1930.

Dealing with conditions in Canada, Sir Herbert stressed the fact that neither the prospects in foreign trade nor the situation in Canadian industry, trade and agriculture, warrant pessimism concerning the outlook for the coming year.

Industrial Advisory Council

After dwelling on the success obtained by President Hoover in securing the active co-operation of industrial leadership throughout the country in the recent crisis, Sir Herbert urged that it would be to the advantage of Canada to establish a non-partisan Advisory Council, composed of men of outstanding ability, representative of industry, agriculture and labor. This council would bring about a closer approachment between government, industry, agriculture and labor that would assist the

formulation and execution of effective measures for the maintenance of that equilibrium which would ensure stable prosperity.

Vice-President's Address.

C. E. Neill, vice-president and managing director, submitted to the meeting a very interesting proposal by which Canada might benefit to a far greater extent from the tremendous tourist traffic that is coming annually into the country from the United States.

"Canada," said Mr. Neill, "is attracting approximately fifteen million visitors a year. This great annual migration presents an unparalleled opportunity for increasing our trade. As yet there has been no concerted effort to build the tradition that there are purchases which can be made in Canada more advantageously than in the United States. If we could make purchasing in Canada sufficiently attractive, it would make a difference of more than one billion dollars a year in our trade."

General Manager's Address.

Morris W. Wilson, general manager, reviewed the 60th annual report and balance sheet, for the year ending November 30. The figures, both of assets and profits, constitute a new record for Canadian banking. Total assets of \$1,001,442,741 are shown, being an increase of \$92,046,856 for the year. Deposits have gained \$64,620,923 and now stand at \$772,067,768.

Pay Big Dividends

About Two Hundred and Fifty Millions Paid To Stock Holders In Canadian Corporations

Approximately \$250,000,000 was paid in dividends to stock holders in Canadian corporations in 1929, according to an estimate based on actual disbursements of more than 500 securities listed on the Canadian stock exchanges and others widely held by the general public.

During the year a number of bonuses or extra cash dividends were also paid. In the final three months of last year about \$10,000,000 was added to regular quarterly dividends.

Paring a corn is both risky and ineffective. It is much better to use Holloway's Corn Remover and eradicate them entirely.

"The African is the only happy human I have come across," said General Smuts, at Oxford, recently. "No other race is so easily satisfied, so good-tempered, and so care-free."

Dentist: "Which tooth do you want extracted?"
Pullman Porter: "Lower seven."

The area of the world which boasts the least illiteracy is western Europe.

Missed a Fortune

Ignorance Of Geology Was Costly For Prospector

How a fortune was missed as the result of a Gold Coast prospector's ignorance of geology was revealed by Sir Albert Kiltson at the recent meeting of the British Association. The prospector in search of gold dug a hole and unearthed manganese ore. Thinking it was iron ore, he took no notice of it. A geologist found the old hole and realized the value of the ore. The spot has since proved to be one of the largest and richest deposits of manganese ore in the world.

Port Arthur's Population

Port Arthur's population, according to the assessment commissioner, is now 20,092, or an increase of 730 over last year.

The Singing Fool

By HUBERT DAIL

Copyright, 1928, Warner Bros. Pictures, Inc.

SYNOPSIS

Al Stone, singing waiter at Blackie Joe's New York night club, marries Molly Winton, a ballad singer, not knowing he is loved by Grace Farrel, a little cigarette girl. After Al wins fame as a composer of popular songs, Molly elopes with John Perry, taking her baby, Junior. Al, broken by his loss, becomes a derelict, but is saved by Grace Farrel. Molly obtains a divorce. One night, while Al is appearing in a Broadway revue, he is called to a hospital by Molly because Junior is dying. After his boy's death Al breaks down on the stage while trying to sing. Months later he recovers from this blow. Then he and Grace are married at the Little Church Around the Corner.

CHAPTER XXXII.

Grace came out of the church door proudly, leaning on Al's arm, to face the news photographers who had, somehow, learned of the event. The cameramen did not have to tell Grace and Al to smile. Their faces were radiant. When this ceremony was over they stepped into a limousine and went whirling up the Avenue among the fantastic skyscrapers that seemed to Grace all rosy and pink against the deep blue afternoon sky.

And later?

Spring days came and the mellow approach of summer. Up and down Broadway and in all the cities, towns and hamlets stretching across the continent they were singing the songs Al had written—new songs that reflected the happiness of his new life with Grace.

Grace and Al lived in a tower apartment in one of the new Fifth Avenue buildings, forty floors above the roar of the city streets, with a little balcony that was like a hanging garden of Babylon. In the long early summer twilight Al and Grace could stand on that balcony and look down on the most fabulous city of any age. The rivers twined their silvery way on both sides of the island of Manhattan, the great liners came in from the sea, and Broadway at night cut, like a yellow streak, diagonally across the island.

A Friend to Women

W. N. U. 1822

"How strange to find me here," whispered Grace softly one evening, as she snuggled against Al's encircling and protecting arm. "I who worked at Blackie Joe's so long, and lived in the canyons, and saw the sky only in small patches. Now I'm on top of the world."

"On top of the world," Al repeated, tightening his arm about her waist. "Yes, that's where we both are, and that's where we're going to stay. But not in New York."

"Why not, darling?" Grace turned to him quickly.

Al's smiling eyes grew serious. "Because—well, I've been thinking Grace, I don't want us to stay around Broadway too long. Broadway's all right, and we've conquered it—thanks to you—but there are other parts of the world."

"That's true, Al. Do you want to go some other place to live?"

"Yes, why not. Yesterday, when the revue closed, I told Marcus I was through with the stage. No more burnt cork make-up, no more singing—that is, not professionally. I want to devote all my time to song writing, and I can do that anywhere. So—why not California?"

"To live?"

"Yes, to live. Do you think you'd like it?"

"I'd love it!"

"Then that's agreed." And Al leaned over and kissed Grace. "We'll live in California and whenever we want to come back to Broadway we can. It will be new to us and we'll have a swell time seeing the sights. And if we want to go visiting to the Alps, or to India, or China, or the South Seas—we can. In fact, we'll go anywhere your little heart desires."

Spring days, summer days and two figures, small in the distance, standing on that high balcony, talking in whispers of their love and their life in the future, which seemed to stretch before them like a silver highway melting into the mist. And then

Night on Broadway once more, with the expensively garbed after-theatre crowds drifting into the Club Bombo. The name was the same, but there were new owners, and a new master of ceremonies.

The jazz band played, the dancers swayed, and the master of ceremonies exhorted everybody to be friendly and have a good time. When the music ended and the couples left the floor the master of ceremonies looked about for a celebrity to introduce. Finally he found one and caught the attention of the crowd.

Ladies and gentlemen, he called through his tiny megaphone, "we are especially honored tonight by the presence of that famous star and songster—Broadway's 'Singing Fool!'"

Al and Grace occupied a table against the far wall. As the spotlight shot across the room and found them, Al rose slowly in response to Grace's urging. There was the old roar of applause that had greeted him so many times in this place, and calls for a speech and a song. He raised his hand and the room became silent.

"Ladies and gentlemen," he began, "as most of you know, this is where I had my first taste of success as master of ceremonies. So it's only right I should come here to say good-by. As I bowed in, so shall I bow out. To my pals and the place that treated me so kindly I have only the best in my heart."

"Somebody once said, 'Go west, young man,' and I'm taking that advice. Broadway's been both my menace and my playmate. Tonight we are parting—friends. I'm going west accompanied by the little girl who has stood by me so loyally, Grace Farrel Stone—my wife!"

Once more the thunderous applause and once more Al's raised hand, requesting silence.

"I don't want you to think I'm giving up song-writing. I shall continue to write songs and someone else will sing them. And folks—if any of you come to California I want you to visit Grace and me. You'll find us not in a little gray cottage, but in a forty-two room chateau by the blue Pacific, with a Jap valet, and a polo pony or two. If we're not in, the butler, or the second man will tell you where to find us. . . . May you sleep well and laugh in your dreams. Goodby."

The crowd liked Al's humorous speech, but still the voices rose, demanding a song. "Sing to us, Al," they called. "Just once, for old time's sake."

Al turned to Grace: "What shall I give them?"

Grace blushed slightly. She had been thinking of a song she wanted him to sing, but she didn't know whether she could muster up courage to ask him. But finally she said: "Al, do you remember the first ballad you ever sang—down at Blackie Joe's?"

"Of course I do. But I shall sing it to you as well as to them."

He walked across the room and stood beside the piano, just as he had done that night four years ago at Blackie Joe's. Grace saw him confer with the pianist, then turn to face the audience. Then the familiar music came toward her, with Al singing the words—the poignantly appealing words of "Always."

They seemed to come winging straight to Grace in the stillness of the big room—words she knew by heart, words that had once meant pain to her. She knew she would never forget how Al had once sung them to another woman—Molly—while she, Grace, had stood against the wall at Blackie's club, her tray of cigarettes before her and her eyes fixed on the handsome young singer, in complete adoration. How she had suffered that night, knowing the man she loved was pouring out his heart to the other woman!

Again the song ended in a moment of breathless suspense, to be followed by ringing applause. And Al, slowly wending his way among the gay drinkers and diners, who reached out to shake his hand and pat him on the shoulder, finally reached Grace.

"How was it?" he asked, his eyes aglow with love for Grace.

"Marvelous!"

"Grace," he said softly, "it's your song. All yours!"

When the audience had turned its attention to the floor show Grace and Al slipped out of the club. They strolled arm-in-arm down Broadway. Above their heads was the the razzle-dazzle of many-colored lights and still higher the soft and friendly twinkle of the stars.

THE END.

Complete in itself, Mother Graves' Worm Exterminator does not require the assistance of any other medicine to make it effective. It does not fail to do its work.

Little Helps For This Week

"All things work together for good to them that love God."—Romans viii. 28.

O what a load of struggle and distress
Falls off before the Cross! The feverish care;
The wish that we were other than we are;
The sick regrets; the yearnings numberless;
The thought, "this might have been,"
So apt to press
On the reluctant soul; even past despair,
Past sin itself,—all, all is turned to fair,
Aye! to a scheme of ordered happiness,
So soon as we love God.

—Chauncy Hare Townshend.

Those who love God will find all things working together for their good. Everything helps them, as sunshine or storm, summer or winter, helps the tree. When the sun shines warmly, the tree opens all its buds and leaves and drinks in the warm air, and grows. When the cold storms of winter beat upon it, it withdraws into itself, and shuts its pores, and tightens its hold by the roots, and hardens. So when all things are pleasant in life we enjoy them gratefully, and expand in God's sunshine with thankful hearts. When disappointment and trial come we learn to be patient, trusting, submissive, hopeful, firm, and true, and that is good for us also.—James Freeman Clarke.

Japan's population is estimated to have increased by 1,000,000 in the last year.

Advices Against Skyscraper

American Architect Tells London Builders To Avoid Them

An American architect, who builds skyscrapers, has advised British architects not to erect any in London.

William A. Delano, president of the New York branch of the American Institute of Architects, speaking before the Architecture Club in London, England, said he felt that Americans "are gradually being crushed by these monsters which have made life about as sterile as it can possibly be for the ordinary man."

"I hope you will not be captivated by this particular phase of our experiment," he said. "Unless you are ready to swallow our civilization whole it would seem a mistake to copy any part of it."

THE RESPONSIBILITY OF A FOND MOTHER

Her child is a never-ending source of joy and a never-failing responsibility to the fond mother. It not infrequently happens that minor ailments of the child distress and puzzle her; she does not know just what to do, yet feels them not serious enough to call a doctor. At just such times as these it is that Baby's Own Tablets are found to be mother's greatest help and friend.

Most childhood ailments arise from a derangement of the stomach or bowels. Baby's Own Tablets will immediately banish them by cleansing the bowels and sweetening the stomach. Thus they relieve colic, correct the digestion, banish constipation and make teething pains disappear.

Baby's Own Tablets are guaranteed to be free from injurious drugs such as opiates and narcotics and may be given to the newborn babe with perfect safety and beneficial results. They are sold by medicine dealers or by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.

Fashions and Freedom

Men More Concerned Than Women About Correct Clothes

That all women are, as a matter of course, terribly excited over matters of style in dress and "the latest thing," and all men are sublimely indifferent is nonsense. If there is any part of the esteemed human race that has a more mortal terror of being seen in habiliments that are not what "they" are wearing it is certainly the masculine half. Because the style of men's clothes is based on the idea of lack of change is no valid argument that there is a "fundamental psychic difference." The code is different, that's all. That men have achieved the time-saving idea of an unchanging mode is, anyway, largely a matter of luck, more than careful planning.

So SKINNY Ashamed in Bathing Suit Gained 15lbs

—Enlah Lanningham writes, "Thou sands gain 5 to 15 lbs. in 3 weeks with new Ironised Yeast. Skin clears like magic. Nerves, constipation vanish overnight. Get Ironised Yeast tablets from druggist today."

Appointed To Supreme Court

Mr. Justice Cannon, Of Quebec Court Of Appeals, Is Selected

Mr. Justice L. A. Cannon, of the Quebec Court of Appeals, has been appointed a justice of the Supreme Court of Canada. The appointment of Mr. Justice Cannon fills the vacancy caused by the retirement of Mr. Justice Mignault. No successor has yet been selected for Justice Cannon on the Quebec Court of Appeals.

Announcement of the appointment was made by Hon. Ernest Lapointe, Minister of Justice, following a meeting of the cabinet at Ottawa.

Killed By Sharks

Unfortunate Victims Were Shipwrecked In Squall In Southern Seas

A message from Port Louis, in the Island of Mauritius, reported that five persons had been killed by sharks in the Bay of Tamorino, after their motorboat capsized in a squall.

The five were members of a party of six engaged in shark fishing. They all attempted to swim to shore, which was two miles away, but the sharks caught all but one.

Forests cover 22 per cent. of the area of California.

Burnside Notes

Messrs Joe Davidson, Dave Jen-
kins, Gus Bittner and Bill McCulloch
are taking in a tractor school in
Calgary this week.

There was a large attendance
at the meeting of the Lone Pine W.I.
at the home of Mrs. Mardon on
Thursday afternoon last. It was
decided to hold a whist drive and
dance on March 17th, in the Lone
Pine hall. Miss Annie McCulloch
was appointed delegate to the Dis-
trict Conference at Drumheller on
March 18th.

The next meeting will be held at
the home of the president, Mrs.
N. Eckel on Thursday, March 6th
and the topic will be "Agriculture".
Burnside U. F. A. will hold a
dance in the Lone Pine hall on Fri-
day evening next, Feb. 21st.

We are sorry to hear that Mr.
Chas. Mardon, who has not been
enjoying good health for sometime
is in the Belcher Hospital at present
for treatment.

A community club, the "Go-
Getters" was organized on Satur-
day evening, Feb. 8th, with Mr. E.
B. Anderson as president, A. Ar-
lends as secretary and Gus Bittner
as treasurer. This club is getting
up a programme for an entertain-
ment to be held in the near future.

Melvin Notes.

Melvin district has been hit by a
hard hand of sickness this week.
Mrs. Whiteside is in Calgary with
Douglas, who is having treatment
on his limb, at the Holy Cross hospi-
tal. Mr. Chas Youngs is in the
Lacombe hospital for an operation.
Mrs. Youngs returned from Laco-
mbe on Tuesday and we are pleas-
ed to report Mr. Young is resting
as comfortable as possible. It is
just a little over a year since Mr.
Young had an operation.

Mr. O. O. Swingle was called to
the bedside of his father, who is in
the Chilliwack hospital.

Miss Brown spent the week-end
at the home of Mr. and Mrs. W.
Swingle.

Don't forget Mr. W. Swingle's
sale Feb. 25th.

The Zella club team played the
Go-Getters at Melvin Tuesday, the
score was in favor of Melvin.

Don't forget the Go-Getters dance
at the Melvin school, Feb. 28th.

Mrs. O. O. Swingle is visiting
with her father, Rev. M. E. Wig-
gins at Cardston.

TENDERS FOR SCHOOL HOUSE.

Sealed Tenders will be received by the
Board of Trustees of the Mona School
District, No. 441, at the office of the
secretary-treasurer up to noon on March
4th, 1930, for the erection of a one room-
ed frame school building after plan No.
63 C 795. Plans and specifications may
be obtained from the secretary-treasurer
on the payment of a deposit of \$5. Plans
must be returned within 24 hours, and
deposit will then be refunded. A mark-
ed check for 5 per cent of the amount
of tender should be enclosed with each
tender as a guarantee that same bona
fide. The lowest or any tender will not
necessarily be accepted.

ERIC ATKINSON,
Secretary-Treasurer
Post Office, R R 2 Didsbury
